

Diabetic Hypoglycemia accepted for indexing in EMBASE

We are pleased to announce that *Diabetic Hypoglycemia* has been selected for inclusion in Elsevier's prestigious EMBASE literature database from 2010. The journal content will be indexed from 2010, making the published articles available to an even larger audience.

About EMBASE

The EMBASE database covers over 5,000 journals on topics including drugs and pharmacology, human medicine and basic biomedical science. Most of the titles covered are peer-reviewed, with new titles being added to the collection every year.
