

Diabetic Hypoglycemia accepted for indexing in SCOPUS

We are pleased to announce that *Diabetic Hypoglycemia* has been selected for inclusion in Elsevier's SCOPUS abstract and citation database, making the published articles available to an even larger audience.

About SCOPUS

SCOPUS covers nearly 18,000 titles from more than 5,000 publishers and as such, is the largest abstract and citation database of research literature and quality web sources. SCOPUS enables researchers to quickly and easily identify quality resources to support their research needs in the scientific, technical, medical and social sciences.
